

MOSSÉ SECURITY CAPABILITY STATEMENT

Established in 2010, Mossé Security is an information security company providing world-class cyber security solutions and strategic security advice to government, private sector clients, and security minded individuals. We operate around the world and our head office is in Melbourne, Australia.

➤ CORE EXPERTISE

Mossé Security offers unconventional security solutions that go above and beyond traditional defence strategies:

- **Next-Generation Penetration Testing:** Realistic attack simulations against enterprise networks for defence purposes.
- **Incident Investigation:** Hunt for, detect and respond to security intrusions to minimise business losses.
- **Enterprise Networks:** Improve the defences of large-scale networks using automation, data science and OS internals.
- **Research & Development:** Research, invent and build bespoke security solutions for complex enterprise security problems.
- **Education and Training:** Train staff members on how to defend themselves from cyber-attacks. We can deliver courses in multiple cities, countries, and languages.

We are known and highly regarded in the industry for delivering advanced attack simulations, responding to security intrusions, conducting innovative security research, and training entire companies.
