

# MANAGED CYBER EDUCATION

We deliver comprehensive learning programmes tailored for the different audiences in your organisation with maximum flexibility. Our managed service helps you upskill your team members in cyber security throughout the year and improve the effectiveness of your cyber security initiatives.

## OVERVIEW

We offer specialised learning seminars with the goal of imparting a cyber security consciousness tailored appropriately to the level of every employee within the client's organisation and provides them with practical tools and techniques to protect themselves, their families, their friends, and their company, each within the scope and capacity of their role within the company.

- **Full Gamut:** We offer the full gamut of learning programmes for business executives, regular employees, project manager, and IT personnel.
- **Flexible:** Learning programmes are delivered with full flexibility and customisation. We have no minimum or maximum number of students, we travel all over the world to deliver the courses, and we work to our clients' timeline as well as customise to suit the various to whom they are to be delivered.
- **Comprehensive:** Our training lab contains over 350 practical exercises and we have created over 3000 slides.

## MOSSÉ SECURITY

- **Industry Reputation:** Mossé Security has been in operation since 2010 and has provided cyber security services and learning programmes through our Mossé Cyber Security Institute to numerous top private sector companies as well as government entities worldwide.
- **Trustworthiness:** Our clients consist of multi-nationals, financial institutions, and governments who trust us with the IT security of their organizations. Our services are delivered with dependability, reliability and with thorough professionalism.
- **Candid Advice:** We provide comprehensive and frank assessments of all security issues, and we assist our clients in making timely, informed decisions.
- **Expertise:** Mossé Security has delivered hundreds of technical attack simulations and responded to hundreds of security incidents all over the world. This scope and experience makes us uniquely qualified to offer pertinent and timely security advice to our clients.
