

# MANAGED SECURITY TESTING

Mossé Managed Cyber Attack Services is now offering yearly security testing services at a fraction of the price of traditional penetrations testing. This special Managed Service allows our clients to improve their defences more rapidly, meet compliance requirements, reduce cyber risks, improve incident response capabilities, and assess the effectiveness of their security spending.

## OVERVIEW

- **Unparalleled Coverage:** Some of the many threat actors simulated by Mossé Managed Security Testing Services include nation-state attackers, advanced persistent threat groups, organized criminal organisations, ransomware and malware.
- **Force Multiplier:** For the price of a single penetration tester, Mossé Managed Security Testing Services delivers over 20 attack simulations. This allows our clients to thoroughly test the security of their networks without the challenges of building or expanding internal security teams.
- **Advanced Reporting:** Mossé Security delivers advanced security testing reports including detailed historical vulnerability data and benchmarking against industry standards. This thorough, detailed reporting helps our clients meet compliance requirements and improve security defences more rapidly.
- **Expert Resources:** Attack results are reviewed by Mossé Security's team and bespoke security advice is offered to every client to assist them mitigating the risks of even the most complex vulnerabilities.

## MOSSÉ SECURITY

- **Industry Reputation:** Mossé Security has been in operation since 2010 and has provided cyber security services and learning programmes to numerous top private sector companies as well as government entities worldwide.
- **Trustworthiness:** Our clients consist of multi-nationals, financial institutions, and governments who trust us with the IT security of their organizations. Our services are delivered with the dependability, reliability and thorough professionalism.
- **Candid Advice:** We provide comprehensive and frank assessments of all security issues, and we assist our clients in making timely, informed decisions.
- **Expertise:** Mossé Security has delivered hundreds of technical attack simulations and responded to hundreds of security incidents all over the world. This scope and experience makes us uniquely qualified to offer pertinent and timely security advice to our clients.

## BENEFITS:

### Compliance:

Mossé Managed Security Testing Services attack scenarios are in-line with all the industry compliance and best practice standards. Such as PCI DSS, ISO, and the ASD Top 35.

### Incident Response:

Mossé Managed Security Testing Services allows our clients to safely improve their breach readiness capabilities against hundreds of different types of attacks and intrusions.

### Risk Mitigation:

Improving defenses against threat actors relevant to your organisation's profile reduces the likelihood of security breaches and the financial losses they generate.
